

# FOLDIA XL

RC195

*A trolley that is lightweight and compact making it easier & faster to move your items.*

**The Foldia XL is a trolley** that was developed to integrate seamlessly into any supply chain or logistics environment.

**It can be used with almost any standard Material Handling Equipment**, such as a Forklift, Pallet Jack and is ergonomic, light weight and compact making it easier & faster to move your items and suit your loading requirements.

**With an Australian Footprint of 1150 x 775mm** it offers optimal cubic truck fill making it ideal for all stock picking and distribution operations.

It is by far the most efficient nesting cage globally with a nesting increment of 5:1
