

# FOLDIA® - FOLDING ROLLCAGE

RC19□

***The Foldia Rollcage is  
efficient and versatile and  
can be used in many  
different applications***

The Foldia Rollcage is one of the most ergonomic and space saving roll containers available, its improved design makes it a more ergonomic and space efficient unit.

The Foldia Rollcage enables fast and efficient replenishment reducing manual handling required in the supply chain, resulting in less product damage and personal injury.

Its plastic floor and improved nesting features enables the user to conveniently place the empty units in an open unit.

With its strong construction and low maintenance costs the Foldia roll cage trolleys enable mixed loads and it's ergonomic design reduces the need for secondary packaging and shrink wrapping.
